SONCOIL

STRIP FEED AND TAKE-OFF FOR AUTOMATIC MACHINES

The strip coiler SONCOIL handles your high quality strips safe and with maximum care. The ideal solution for strip feed and take-off on automatic production and assembly machines.

FEATURES

- ✓ Strip slack and strip elongation are controlled by PLC
- ✓ Controlled drive for smooth start-up and deceleration
- ✓ High reusability due to gentle treatment
- ✓ Adaption to your requirements

Technical data	Strip coiler SONCOIL
Max. coil weight each coil (higher weight on request)	80kg
Coil outside diameter	250 - 1000mm
Coil inside diameter (with clamping lever tensioner)	20 - 140mm
Coil carrier diameter	200 - 720mm
Strip width	20 - 120mm
Coiling/decoiling speed	0 - 9.6rpm
Voltage supply	230V, 50 Hz
Wattage	80W

Operation

Reel control with control panel

Products

Strips, contacts, resistors, cable, etc.

Advantages

High operational safety
